HOW TO CREATE A REPOSITORY?

01.

LOG IN AND
SEARCH FOR
THE
REPOSITORIES
OPTION

HOW TO CREATE A REPOSITORY?

02.

CLICK THE GREEN
“NEW” BUTTON

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? Import a repository.

Owner Repository name *

guerreroeileen / bootstrap ✓

Great repository names are short and memorable. Need inspiration? How about special-potato?

Description (optional)

I

Public
Anyone can see this repository. You choose who can commit.

Private
You choose who can see and commit to this repository.

Description (optional)

Public
Anyone can see this repository. You choose who can commit.

Private
You choose who can see and commit to this repository.

Skip this step if you're importing an existing repository.

Initialize this repository with a README
This will let you immediately clone the repository to your computer.

Add .gitignore: None | Add a license: None
